

## **Michael P. Moses**

### **President of Virgin Galactic**

Mike oversees the commercial human spaceflight program. He leads the team in all aspects of safe and successful spaceline operations, including WhiteKnightTwo and SpaceShipTwo vehicle processing, flight planning, astronaut training, and flight crew operations.

Mike came to Virgin Galactic following a distinguished career with NASA. From 2008 through July 2011, he served at the Kennedy Space Center in Florida as the Launch Integration Manager, where he led all space shuttle processing activities from landing through launch. Mike also chaired the Mission Management Team where he provided ultimate shuttle launch decision authority. Other NASA experience includes working as a Flight Director at the Johnson Space Center, where he led teams of flight controllers in the planning, training, and execution of space shuttle missions. Before being selected as a Flight Director in 2005, Mike had more than 10 years of experience as a flight controller in the Shuttle Propulsion and Electrical Systems Groups.

Mike attended Purdue University, earning a bachelor's degree in physics and a master's degree in aerospace engineering. He also earned a master's degree in space sciences from Florida Institute of Technology. He is a two-time recipient of the NASA Outstanding Leadership Medal, as well as other NASA commendations and awards.
