

MIKE HINDERBERGER

SENIOR VICE PRESIDENT FOR AIRCRAFT DEVELOPMENT

Mr. Hinderberger is responsible for all Aerion technical activities required to develop the AS2 supersonic business jet in conjunction with an engine supplier and an airframe OEM.

Hinderberger has led aircraft development programs at a number of manufacturers. He has served as vice president of engineering at Piper Aircraft, vice president of product development at Hawker-Beechcraft, and chief engineer for the G650 program at Gulfstream Aerospace.

Working for Rolls-Royce, Hinderberger gained extensive experience with propulsion systems development and integration. There, he served as flight test team leader for certifying the engine, thrust reverser, and nacelle for the Bombardier Global Express. He later managed the successful development of the G650 nacelle and thrust reverser by Spirit AeroSystems.
